

SELF CLOSING BASIN TAPS

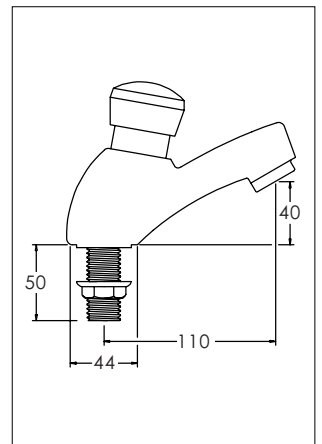

PRODUCT CODE
6811TDH:6811TDC:6821TPH:6821TPC

November 2006

Description

The self closing non-concussive basin tap provides savings in both water usage and energy in all commercial and industrial environments. The tap provides approximately 15 seconds duration of flow when the push button top is depressed. Manufactured from solid brass and finished in a high lustre chrome, the tap is available for either hot (coded red) or cold (coded blue) water supplies. Deck and pillar designs of the tap are available, both have a 12 mm (½ in) BSP male inlet connection.
